tinued aggressiveness on their part forced prices up until they were at an advance of TI to 84 points, while the close was 61 to 68 points higher than Saturday's close.

The shorts at no time made any great impression on prices by their selling. Statistics were too strong a weapon in the hands of the bulls, and during the second half of the session shorts made no open effort to depress prices, while rumors had it that they were quietly covering.

"Olympe" To-night.

"Olympe" To-night.

Miss Amelia Bingham will present "Olympe," by Plorre Decourcelle, at the Academy to-night, to-morrow matinee and to-morrow night.

The new play is far cry from the modern comedies of manner with which Miss Bingham s fame has been chiefly associated since her elevation to stellar honors, for it is a semi-historical romance of the time of Louis XV. It affords Miss Bingham a role in which she runs the gamut of the emotions, and shows that she can play the grande dame of the long past age as well as that of the present day.

Decourcelle concedes the inspiration for the play to the elder Dumas. The story hangs upon the love of Jacques Banniere, a novice in the Jesuit cloister at Avignon, for Olympe de Cleve, a provincial actress of great beauty and intentions of first proper studies, and being confined in the meditation cell for this offerse, he escapes and takes retuge in the green room of the near-by the-atre. The leading man fails to put in an appearance for the performance, and the young novice, who knows all the lines of the classic drama to be performed, is pressed into service. He plunges hopelessly in love with Olympe, and follows her about the country until he is tricked by political conspirators, who wish to remove him from the vicinity of Olympe, and is shot dust as Olympe reaches himself as a deserter from the army, and is shot dust as Olympe reaches himself as a deserter from the army, and is shot dust as Olympe reaches himself as a deserter from the army, and is shot dust as Olympe reaches himself as a deserter from the army, and is shot dust as Olympe reaches himself as a deserter from the army, and is shot dust as Olympe reaches himself as a deserter from the side.

This story is set in scenes of great beauty and interest, the first act showing the cloisters of the Jesuit College, with the rich colors of the flowers and the spinsh of the fountam contrasting vivilly with the cold.
